Exam : **HP0-J17**

Title : Designing and Implementing
the HP StorageWorks
EVA4400

Version : Demo

1. What does the Dynamic Capacity Management (DCM) of an EVA storage system provide?

- A. maximum capacity utilization to the EVA
- B. load balancing on the host ports of an EVA
- C. optimized bandwidth utilization during replication
- D. minimized space requirement during rebuild operation

Answer: A

2. Which SMB customer business needs are best addressed by the EVA4400?

- A. growing budgets, high availability, rapid data growth
- B. shrinking budgets, disaster tolerance, rapid data growth
- C. easy configuration, non-stop performance, growing budgets
- D. ease of management, shrinking budgets, non-stop performance

Answer: B

3. What can you use to provide a Fibre Channel SAN extension over an IP network in an EVA4400 CA solution?

- A. MPX110 IP Distance Gateway
- B. IP connector on the controllers
- C. only an 8Gb Fibre Channel switch
- D. any Fibre Channel switch, provided it has an extended fabric license

Answer: A

4. Which EVA solution provides the best level of site disaster tolerance?

- A. Snapclone
- B. Business Copy
- C. Continuous Access
- D. Replication Solutions Manager

Answer: C

5. How does the name of an uninitialized system show in Command View EVA?

- A. serial number
- B. uninitialized system
- C. WWN of the storage system
- D. WWN of FFFF-FFFF-FFFF-FFFF

Answer: C

6. What is an interconnect requirement for the EVA4400?

- A. The SAN switch must run at 2Gb/s or greater.
- B. All components in the SAN must run at 4Gb/s.
- C. The direct connected switch must run at 4Gb/s.
- D. All components in the SAN must run at 2Gb/s or greater.

Answer: A

7. Where must the multipath software be installed to enable multipathing?

- A. on all hosts in the SAN
- B. on the storage system
- C. on the dedicated management server
- D. on all hosts that require multipath access to the EVA

Answer: D

8. Which user group membership enables the user to access Command View EVA?

- A. EVA Admin
- B. HP Manager
- C. SAN Administrator
- D. HP Storage Admin

Answer: D

9. When can you start to create the first Vdisk using Command View EVA?

- A. after a host is created
- B. after storage system initialization

- C. after multipath software is activated
- D. during the storage system initialization

Answer: B

10. When is the first disk group (default disk group) created?

- A. after storage system initialization
- B. during the initialization of the storage system
- C. during the installation of Command View EVA
- D. manually, before the system can be initialized

Answer: B
