Exam : HPE2-E71

**Title : Introduction to Selling HPE
Products, Solutions and
Services**

Version : DEMO

1.You have qualified a customer for the storage use case of business analytics and database support. Which characteristics indicate that the customer is in the expanding stage of their business analytics and database support journey?

- A. The company pays for IT support on an as-needed basis and has limited budget for new IT projects.
- B. The company is deploying a Microsoft SQL server but does not have a dedicated IT staff.
- C. The company is growing slowly and is just beginning to gain some experience in managing databases.
- D. The company has discovered it has multiple SQL Servers and has asked their IT staff to consolidate the servers.

Answer: C

2.What benefit does the Aruba AppRF feature provide your customers?

- A. It dynamically adjusts the radio power to reduce interference in high-density AP environments.
- B. It connects clients to the best available AP, eliminating issues caused by clients that stick to an AP even if the signal strength is weak.
- C. It inspects wireless traffic to monitor how applications are used and to give priority to business-critical applications.
- D. It improves wireless performance by moving AP radios to channels that are not experiencing RF interference.

Answer: C
