Exam : HPE6-A67

**Title : Aruba Certified ClearPass
Associate 6.7**

Version : DEMO

1. Your boss suggests that you configure a guest self-registration page in ClearPass for the Conference Events SSID.

Which advantages will this give? (Choose two.)

- A. It will allow guest users to create a login account for the web login page.
- B. It will stop employees from putting their corporate devices on the event network.
- C. It will allow employees to get their own devices securely connected to the network.
- D. It will allow the Conference center to collect extra information about the guest.
- E. It can be pre-located with guest information from the conference registration.

Answer: AE

2. Which statements describe subnet scans for static IP device discovery? (Choose two.)

- A. To run an On-Demand Subnet Scan, you must first configure a subnet scan in the profile settings.
- B. The On-Demand option provides the ability to trigger a one-time scan in specified network subnets.
- C. The On-Demand option provides the ability to scan and profile devices only with static IP.
- D. Only SNMP can be used for subnet scans for subnets configured for DHCP.
- E. Subnet scans can be scheduled to execute a scan every 24 hrs for configured subnets.

Answer: BC

3. Select three elements that are part of the authorization process. (Choose three.)

- A. Send a RADIUS accept to the Access device.
- B. Verify client credentials against your account.
- C. Determine posture status.
- D. Validate the user account attributes.
- E. Filter by endpoint device type.

Answer: ABD
