Exam : SPC

**Title : SAFe 5 Advanced Scrum
Master**

Version : DEMO

1.We have created the implementation plan, what is the immediate next step?

- A. Coach ART execution
- B. Relentless improvement
- C. Train Executives, Managers, Leaders
- D. Train teams and launch the ART
- E. Prepare for ART launch

Answer: E

Explanation:

In SAFe implementation Roadmap there are 12 steps to follow: "Create the Implementation plan" is the 6th step and the next step is "Prepare for the launch of ART".

2.What is one benefit of unlocking the intrinsic motivation of knowledge workers?

- A. To strive to achieve a state of continuous flow
- B. To achieve the best value and quality to people and society
- C. To provide autonomy with purpose, mission, and minimum constraints
- D. To decentralize decision-making

Answer: C

Explanation:

the benefit of unlocking the intrinsic motivation of knowledge workers is To provide autonomy with purpose, mission, and minimum constraints. Pink asserts that knowledge workers need autonomy—the ability to self-direct and manage their own lives. Providing autonomy, while harnessing it to the larger aim of the enterprise, is an important leadership responsibility.

3.Who serves as the Servant Leader(s) for the Agile Release Train?

- A. Product Management
- B. System Architect
- C. Release Train Engineer
- D. System Team

Answer: C

Explanation:

The Release Train Engineer (RTE) is a servant leader and coach for the Agile Release Train (ART). The RTE's major responsibilities are to facilitate the ART events and processes and assist the teams in delivering value.
